Slava Kim

slv@mit.edu   650.691.3405   slv.io

EDUCATION

MIT

2015-2019 Cambridge, MA

Bachelors in Computer Science

Selected Coursework:

Compilers Eng
Distributed Systems
Operating Systems
Database Systems
System Security
Systems Eng
Performance Eng
Adv Datastructures
Design and Analysis of Algorithms
Computational Photography
Advanced Machine Learning

EXPERTISE

AREAS OF INTEREST

Distributed Systems
Web Technologies
System Security
Compilers
Open-Source Software

TECHNOLOGIES USED

Golang • Hipster JS • C++
Zookeeper • Redis • 0MQ
GraphQL • PostgreSQL • HBase
Docker • Kubernetes • AWS • Heroku
React • Redux • Relay • Apollo
Git • Mercurial • GitHub • Phabricator

WORK EXPERIENCE

BRAVE SECURITY INTERN

Summer 2018 San Francisco, CA

- Fixed security and privacy bugs in the Brave Browser
- Developed a new micro-service for **authorized anonymous operations**
- Built an Ethereum wallet integration and dApps support for the Brave Browser
- Mentored by Yan Zhu, Brave's Chief Security Officer

FACEBOOK SWE INTERN

Summer 2017 Menlo Park, CA

- Worked on GraphQL client infrastructure: Relay, GraphQL compiler
- Developed a new open-source debugging tool: **Relay Developer Tools**
- Mentored by Lee Byron, GraphQL co-author and open-source maintainer of GraphQL projects

METEOR SWE INTERN

Summer 2016 San Francisco, CA

- Built major features for open-source GraphQL client: **Apollo Client**
- Worked on the commercial product Optics: out of query path profiler for GraphQL

METEOR CORE DEVELOPER

May 2013 - Aug 2015 San Francisco, CA

- Core Developer on the very popular open-source web framework Meteor
- One of the first 10 engineers in the company
- 40.000 stars on GitHub, top 4 contributor
- Worked on every part of the framework: datasync, buildsystem, live templating, deployments
- Contributed to the development of distributed fault-tolerant deployment system: **Galaxy**

OPEN-SOURCE & SIDE-PROJECTS

METEOR AND RELATED PROJECTS

- Meteor the framework ⭐40.000 stars
- Meteor autocompletion for text editors ⭐300 stars
- Meteor live-updates with RethinkDB ⭐312 stars
- Meteor live-updates with PostgreSQL ⭐155 stars

GRAPHQL AND RELATED PROJECTS

- Apollo Client ⭐8.000 stars
- Relay ⭐11.000 stars
- Relay DevTools ⭐60 stars

BRAVE AND RELATED PROJECTS

- Brave Browser ⭐7.800 stars

AWARDS

2014	Hackathon Winner	ChimeHack
2012	Silver Medalist	International Olympiad in Informatics
2011	Bronze Medalist	International Olympiad in Informatics

ACTIVITIES

MIT 6.148	Lecturer, Sponsors Chair, Tech Chair
MIT Climbing Team	Member, Competitor
MIT ATS	Web-Master
MIT KSA	Web-Master
MIT ZBT	Tech Chair
